**RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS**

Sir:

In response to the Notification of Missing Requirements mailed May 31, 2007, Applicants initiated a discussion with Barbara Campbell of the Office of PCT Operations. The USPTO had noted a discrepancy in the title on the Declaration with the title of the International Application. Ms. Campbell acknowledged that the change in title could be traced back to the priority application and that a new Declaration would not be necessary.

Applicants also respectfully submit that the application does not include any nucleotide or amino acid sequences. Accordingly, Applicants do not believe the submission of a Sequence Listing according to 37 CFR §§1.821-1.825 is required in the instant case. Therefore, Applicants respectfully request that the requirements for submission related to sequence listings be withdrawn and the application be passed to the Examiner Group for review.

In accordance with USPTO requirements, a copy of the Notification of Missing Requirements is attached. The Office is invited to contact the undersigned at (919) 483-1577 to discuss this matter further, if desired.

Respectfully submitted

Date: 11 June 2007
